## Desired employment

Software engineer, possibly with focus on artificial intelligence or machine learning

## Education and training

Oct 2015 - ongoing

### *Master's degree in computer engineering*

Politecnico di Milano

- Acquired the basic knowledge in the fields of artificial intelligence and machine learning
- Master's thesis (ongoing): coordinated multi-robot exploration with energy constraints
- Expected final mark: 110/110

Feb 2017 - Sep 2017

### *Master's thesis abroad*

Institute of Networked and Embedded Systems at the University of Klagenfurt, Austria

- As part of my master's thesis work, I spent 8 months abroad working as a research assistant
- Main tasks: programming (using ROS and C++), data collection and data analysis

Oct 2012 - Sep 2015

### *Bachelor's degree in computer engineering*

Politecnico di Milano

- Gained the basic skills and knowledge to work as a computer engineer, such as programming and problem solving
- Bachelor's thesis: implementation of a board game (EFTAIOS) in Java
- Final mark: 110/110 cum laude

## Work experience

2006 - 2016

### *Private tutor*

Self-employed

- Worked one-on-one with middle and high school students in mathematics, physics and computer science
- The tutored students always improved their grade average in these subjects of at least 2 points (out of 10) and their studying skills

## Personal skills and competences

Mother tongue

Other languages

Italian

*English*

Listening	Reading	Speaking	Writing
C1	C1	C1	C1

Common European Framework of Reference (CEF) level

Social skills  
and competences

- Good communication skills, gained by working as a private tutor
- Good ability to adapt to new environments, developed through my experience abroad
- Basic team working skills, acquired by working on some academic projects and also by participating to some board and video games competitions; in some of these occasions I was also the team leader

Organisational skills  
and competences

- Good ability to work under pressure and autonomously, gained through my experience as a research assistant

Computer skills  
and competences

- *Programming languages*: good knowledge of C, C++, Java, Python, SQL and Bash; basic knowledge of jQuery, Scheme, Haskell, Prolog, Scala and MATLAB
- *Operating systems*: good knowledge of Microsoft Windows and Ubuntu
- *Typesetting systems*: advanced knowledge of Microsoft Word, Excel and PowerPoint; good knowledge of LaTeX
- *Web page creation*: basic knowledge of HTML and CSS

Other skills  
and competences

- Good analytical and critical thinking skills, developed during my academic studies
- Strong interest in working and developing new knowledge in the field of computer engineering

## Additional information

Extracurricular interests

Reading, board games, video games

Driving licence

B
